ADD TO COMPARE LABEL OTHER LABEL

PURPOSE:

- Allow the User to drill down and search for products and articles quickly.

- Quick access to name, catalog numbers, supplier names, product descriptions, variants, price, and other labels / tags.

- Allow the user to add quantities, add to basket, make comparisons without moving into product detail level templates.

ELEMENTS

1. PRICING ZONE

1a. SEE PRICING DETAILS

- Due to multiple product organization, show user a "price range". (out of scope)

1b. PRICING

- Logged in users see **contract pricing** & lowest price of the collection

2. EXPAND AND COLLAPSE TOGGLE

- Display at bottom right to applicable product parent categories

3. CATALOG CHILDREN TYPES

4. CATALOG CHILD NUMBER

- From the catalog number record in the index

5. NAME – PIM/SAP

- Pass these selections to the product page grids and highlight them.

- Items in results that are also in a customers custom catalog (JIT list) will have their name title links appear in **green** by default.

Note: If another color is set in the admin center, the titles will appear in that color.

6. CHILDREN ATTRIBUTES

- Three column grid data based on top three selected web codes in PIM.

- From the supplier/vendor/ manufacturer record in the index

7. STOCK STATUS

- IN STOCK
- LOW STOCK
- NOT AVAIL – re-stock date

8. QUANTITY TOOL

- Free text must be a number value, any other characters will display a request to enter a valid number.

- (+) and (-) tools will move in increments of 1

- Any values entered into this zone will add product feed data into the cart and reset when the user executes "Add to Cart" "Add to Basket"

9. CATALOG# PRODUCT DETAIL

- Link to detail page without any highlights or attributed being passed into the detail grid.

10. LOAD 5 MORE

- Load 5 More records
- Not visible for configurable product tags
